

HBO Microlithography Lamps for ASML i-line Systems

Areas of application

- Microlithography

Product features and benefits

- High spectral intensity with peak irradiance at 365nm wavelength, making it ideal for microlithography
- Designed for long lasting performance
- Qualified with ASML
- Qualified with ASML

	the Candidate List
	substance is
	sufficient to allow
	safe use of the
	article.
HBO 2500 W/PIL	The identification of
	the Candidate List
	substance is
	sufficient to allow
	safe use of the
	article.
HBO 3500 W/PIL	The identification of
	the Candidate List
	substance is
	sufficient to allow
	safe use of the
	article.

¹⁾ Distance from end of base to tip of anode or cathode (cold)

²⁾ Anode underneath

3) Maximum permissible base temperature: 200 °C

⁴⁾ Anode on top

Product family datasheet

Safety advice

Because of their high luminance, UV radiation and high internal pressure (when hot) HBO lamps may only be operated in enclosed lamp casings specially constructed for the purpose. Mercury is released if the lamp breaks. Special safety precautions must be taken. More information is available on request or can be found in the leaflet included with the lamp or in the operating instructions.

Application advice

For more detailed application information and graphics please see product datasheet.

Disclaimer

Subject to change without notice. Errors and omission excepted. Always make sure to use the most recent release.
