

BATTERYjumpstart 1000

BOOST FUNCTION

Starts completely depleted batteries

New Boost function allows user to restart vehicles with depleted batteries

Powerful Lithium Battery

Starts up to 5-liter petrol and 2-liter diesel vehicles

PD30W Power Pack

Fast charges phones and other devices via the built in USB ports

Powerful and safe jumpstarting for 12V vehicles with integrated USB charging and enhanced safety features

The OSRAM BATTERYjumpstart 1000 can jump-start vehicles with engines up to 5L Petrol or 2L Diesel. With 1000A starting power, it is suitable for most 12V cars, vans, SUVs, and LCVs. The boost function enables jump-starting of completely depleted batteries. The unique ergonomic smart clamp connection features longer cables for better accessibility in hard-to-reach areas. Safety features include reverse polarity protection, anti-spike protection, and short circuit protection, with audible and LED indicators. An integrated torch illuminates the work area, and LED indicators show the current battery level. The unit features PD30W fast charge technology for quicker recharging and powerful charging of mobile devices via the USB C and USB A ports.

Product family datasheet

Technical data

	Electrical Data	Environmental & Regulatory Information Information according Art. 33 of EU Regulation (EC) 1907/2006 (REACH)		
Product description	Boost-Function (start batteries from 0V)	Candidate list substance 1	CAS No. of substance 1	Safe use instruction
BATTERYjumpstart 1000	Yes	Lead	7439-92-1	The identification of the Candidate List substance is sufficient to allow safe use of the article.

Product description	Declaration no. in SCIP database
BATTERYjumpstart 1000	e4820144-9105-4a0c-ac14-22284b8fcc6d
